## EDUCATION

### A.S. IT-Web Software Developer | Madison Area Technical College

JANUARY 2021 – MAY 2023

First generation student. Took courses covering concepts for web software development. Knowledge on front and back-end technologies to create dynamic web applications. This includes some UI/UX knowledge for adhering to accessibility concerns and design choices.

## EXPERIENCE

### Fresh Cut Clerk | Festival Foods

JUNE 2020 – JULY 2021

High production role that involved processing fruits and vegetables into containers for clients. Completed tasks in a timely manner with attention to detail. Responsible for my own time management and production methods. I helped getting the department more sales by meeting sales projections.

### Hardware Associate | Walmart

JUNE 2017 – JULY 2018

Customer focused position that involved being cross trained in most of the general merchandise side of the store. Maintained departments appearance and stock quickly.

## SKILLS

- HTML
- CSS
- JavaScript
- Java
- Fluent in speaking and writing Spanish
- PHP
- SQL
- Agile
- Bootstrap
- Amazon Web Services

## PROJECTS

### Personal Blog

Created a dynamic blog that is deployed on a LAMP stack using Bootstrap to create the front end. Features basic authentication with room to improve.

### Personal Website

A responsive personal website for showcasing my skills and to display information for employers.
